

# CF Series Cartridge Filter

POSEIDON Cartridge filters offer outstanding performance and durability, and has been designed for the filtration of water in swimming pools for Australian conditions.

- In ground and above ground swimming pool filtration.
- Salt water pool compatible.
- 5 year warranty.
- Corrosion resistant thermoplastic construction suitable for all swimming pools dosing equipment types including salt water applications.
- Easy to install.

Specifications	CF 50 50 SQ FT	CF75 75 SQ FT	CF 100 100 SQ FT
Maximum working pressure	350KPA	350KPA	350KPA
Maximum pool size	45,000L	70,000L	110,000L
Maximum flow rate	180LPM	250LMP	360LMP

# CF Series Cartridge Filter

## Trouble Shooting Guide

PROBLEM	POTENTIAL CAUSE	CORRECTION
Cloudy Water	Insufficient filtration time Poor chemical balance	Increase filter running time Test water and adjust chemical balance
Poor Water Flow	Dirty filter Full skimmer box Full pump hair and lint basket Air in system Pump blocked with debris	Remove and clean Clean skimmer box Clean pump basket Clear air blockage Clear debris from pump
Excessive Pressure	Valve turned off Pump too powerful for filter size	Check that valves are open in correct position Check pump size and change if required
Low Operating Pressure	Broken pressure gauge Pump blocked with debris Air in system Blocked skimmer basket	Remove / replace pressure gauge Remove debris from pump Check all barrel unions and the lid of the filter for air leaks Remove debris from skimmer basket
