HY-CLOR ROBOT POOL CLEANERS

Robot pool cleaners can be a great time and energy saver, But which one is best for my pool?

CORDLESS CLEANERS

Cordless cleaners run on batteries, so they have the advantage of not having cords to tidy up or get tangled. This makes them easier to put in and out of the pool.

HY-CLOR i1

SCAN ME FOR MORE INFO

Designed to be lightweight, exceptionally user-friendly and affordable. It specialises in floor-only cleaning, has a 7 day timer function, 2 hour run time, quick 2.5 hour charge time and a dual layer filter system. Once it has finished it's cleaning cycle it parks at the side of the wall. Works on above ground pools too.

HY-CLOR i2

SPECIAL ORDERS

A great value for money cordless robot pool cleaner which cleans brilliantly. This robot cleans the floor only and is super easy to use. It has a brush and is lightweight, making it very easy to take in and out of the pool. It has adjustable direction jets, allowing you to fine tune the cleaner to your pool. When it nears the end of its cleaning cycle, it parks at the side of the pool.

HY-CLOR i6

SCAN ME FOR MORE INFO

The i6 is a high quality, high performance, feature packed, cordless robot pool cleaner that will scrub your floors, walls and waterline.

It has an exceptionally long run time of three hours, allowing you to set up to 4 programs to clean your pool over 7 days before needing to recharge. Intelligent pool navigating means that it systematically covers your pool, and the advanced track system allows it to climb steps and other obstacles.

The i6 comes with a mobile app that allows you to set your pool conditions, cleaning patterns and select up to 6 different cleaning modes.

CORDED CLEANERS

Corded cleaners require cords but compared to cordless cleaners generally have better suction power and don't need to be recharged.

HY-CLOR s5

SCAN ME FOR MORE INFO

The s5 pool robot efficiently cleans pools in a two-hour program cycle. It cleans floors, walls and the waterline. It expertly navigates obstacles with its automatic rear roller lift feature. Anti-twist connections keep the cord from tangling. Focus Flow technology ensures optimal suction, and the accessible filter basket allows easy cleaning. With a 16m total cord length, the s5 is capable of cleaning larger pools.

The HY-CLOR s5 uses dual layer filtration with a 180 micron basket and a 50 micron pad insert.
